**It is for any couple that want to invest  
in their relationship.**

No matter where you are in your relationship you  
can benefit from the Marriage Course. It  
strengthens strong marriages and can help resolve  
issues or re-open communication for couples who  
are going through difficulties. Some separated or  
divorced couples have used the Marriage Course  
to begin addressing their differences.

Each evening enjoy opportunity to relax before a  
lively presentation on an aspect of marriage.

***"... It is like a date night. They make you feel  
very special....You don't have to share with  
anyone else. You have a sense of privacy which  
is important."***

While the course is based on principals found in  
the Bible you will find it informative and helpful  
irrespective of your own religious beliefs.
